CPFilm ENERGY

Martinsville, VA - CPFilms recently became a Service and Product within the U.S. Environmental Protection Agency/U.S. Department of Energy ENERGY STAR Program partnership enables CPFilms (www.cpfilms.com) to highlight and promote the energy-saving benefits of our LLumar energy-control window film utilizing many tools available ENERGY STAR for homes and businesses, such as the HomeAdvisor, the Energy Portfolio Advisor and the Financial Value Calculator. These tools, and more information about energy-efficient windows and ENERGY STAR Programs are available at www.energystar.gov. Window film products offered by CPFilms provide home and business owners a key tool to enable them to reduce energy use and costs, and encourage business owners towards obtaining the Energy Star Label for their buildings.

CPFilms manufactures and LLumar professionally installs energy-control window films.
